

IPS Frictionless

Reduce Congestion. Increase Compliance. Rethink Parking.

Municipalities are under pressure to deliver parking systems that are efficient, cost-effective, and easy to use. With IPS' next-generation frictionless solution, cities can streamline operations, increase compliance, and provide a seamless experience for both parkers and operators. Our technology creates faster entry and exit, reduces operational costs, and improves overall customer satisfaction—helping cities modernize their parking operations with simplicity and innovation.

KEY BENEFITS

Reduce Operational Cost

Create a Better Parking Experience

Maximize Utilization

Enable Smarter Enforcement

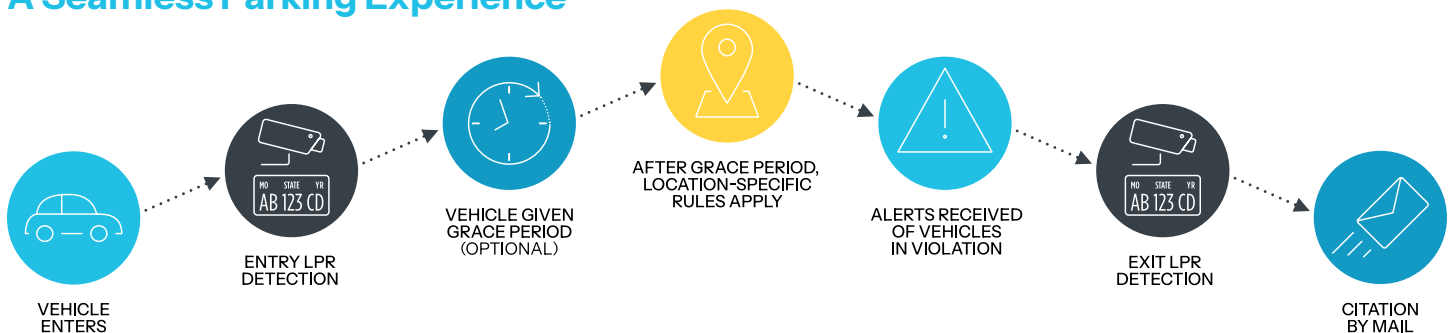

Hosted in the Data Management System (DMS)

Gain comprehensive visibility into your entire parking ecosystem, from enforcement and utilization to compliance.

Make Data-Driven Decisions: Optimize operations through a complete 360-degree view that drives efficiency and informed decision-making. Use real-time data to inform city planning and implement policies that align with parker needs.

Flexible and Scalable: Seamlessly integrate with existing IPS or third-party infrastructure and expand as your operations grow. Gateless LPR systems lower installation and maintenance costs while enabling remote updates with minimal downtime.

A Seamless Parking Experience
